

Presentation Guidelines for Boston PowerPlay 2008

- 1. Keep in mind that we will have several teams presenting their presentation research. Please keep presentations to five minutes or less.**
- 2. While we love to see parents and coaches at the event, we request that only team members participate in the presentations. No coaching, prompting, or line reading, please.**
- 3. We will have limited time and resources for the presentations, so please let us know if you need specific resources like electrical outlets, a projector, etc.**
- 4. The judges will ask each presenting team a few questions after their presentation. Be prepared to answer questions on anything your team has talked about.**
- 5. Have fun! The presentation is the time and place to show off how much you and your team have learned about energy sources.**
